

# WidePoint Confirms Conference Call Tomorrow

**Conference call to review Q1 results and discuss Q2 forecast to be held tomorrow, May 20 at 4:30 p.m. EDT**

Monday, May 19, 2008

**WASHINGTON, D.C.**, -- WidePoint Corporation (AMEX: WYY), a leading provider of advanced information technology, identity assurance and mobile telecom expense management services, today confirmed it will release its 2008 first quarter results on Tuesday, May 20, 2008.

A conference call will also be held on May 20 at 4:30 p.m. EDT to discuss first quarter financial results, the company's second quarter forecast and the company's strategic goals and objectives for 2008. To participate, call 800-762-8779 any time after 4:20 p.m. Eastern. International callers should dial 480-629-9031.

Jim McCubbin, WidePoint CFO, said, "Our top-line guidance for the first quarter met our projections and we continue to forecast upside revenue growth in the second quarter. We are forecasting a sequential increase in revenue growth in the second quarter across all three segments and believe this trend will continue into the near future. As a result of new contract wins and modifications to existing contracts late in the first quarter and certain start-up costs related to those efforts, we believe that our second quarter margins will improve over our first quarter, resulting in increases in operational profitability. WidePoint's selling, general and administrative (SG&A) costs in the first quarter also reflected certain non-recurring expenses associated with our iSYS acquisition in January 2008. Those related and predominately non-cash stock compensation expenses will not recur, improving our SG&A performance in the second quarter. As a result of these projected improvements in revenue, gross margins and SG&A, we are forecasting improved financial performance across the board in the second quarter."

## **About WidePoint**
