

WidePoint Names Ronald S. Oxley to Board of Directors

New Director has Served 28 Years With Office of the Secretary of Defense and Departments of Navy, Army and Air Force

Wednesday, August 16, 2006

Fairfax, VA -- WidePoint Corporation (OTC Bulletin Board: WDPT) announced today the appointment of Ronald S. Oxley to the company's board of directors.

Steve Komar, CEO of WidePoint, said, "Ron will be a tremendously valuable addition to our board of directors. His U.S. federal government career spanned almost 28 years with the Office of the Secretary of Defense and with the Departments of the Navy, Army and Air Force where he held various senior level executive positions. The last nine years of his federal career was at the Office of the Secretary of Defense where he monitored the development of the office's defense-wide strategic vision and implementation plan for command, control, communications, intelligence, surveillance and reconnaissance. Subsequent to his U.S. federal government career he also successfully honed his business skills as a senior level executive with several prominent U.S. federal government contractors that included Litton/PRC, Emergent Information Technologies and L-3 Communications. As a senior-level executive with a specific expertise in new business development within the U.S. federal government sector, Ron brings a wealth of knowledge, relationships and functional experience that are critical to our future success at WidePoint. Ron's expertise will be further leveraged by his participation on several committees of the board."

Oxley currently serves as the executive vice president of ARC International Corporation. ARC specializes in providing domestic and international middle-market and emerging growth companies with a broad range of strategic advisory services.

Prior to joining ARC in 2004, Oxley was president and general manager of L-3 Communications Analytics Corporation based in Vienna, Va. L-3 Communications is a provider of information technology solutions to both industry and government, primarily in the aerospace and defense arena.

Oxley served in the same capacity at Emergent Information Technologies, Inc. prior to being acquired by L-3 Communications in November 2001. He came to Emergent in April 2000, from Litton/PRC Inc, where he was senior vice president of business development and marketing.

Before joining Litton/PRC in 1996, Oxley spent more than 28 years in the U.S. federal government where he held senior executive service positions in the Office of the Secretary of Defense for command, control, communications, intelligence, comptroller, and acquisition and technology and with the departments of the Navy, Army and Air Force. While with the U.S. federal government, Ron was awarded a series of Meritorious Service Awards and was nominated for a Presidential Executive Career Award in 1996.

Oxley holds a top secret SCI clearance with life style polygraph. He holds a Master of Science

degree in systems management from the University of Southern California and a Bachelor of Science degree in business administration from California State University. He served in the U.S. Army from 1966 to 1968, including a tour of duty in Vietnam.

About WidePoint

WidePoint is an innovative technology-based provider of products and services to the government sector and commercial markets. WidePoint presently specializes in providing systems engineering and information technology services as well as PKI e-Authentication and credentialing services. WidePoint's wholly owned subsidiary, Operational Research Consultants, Inc. (ORC) is at the forefront of implementing PKI, e-Authentication and credentialing services. The company's identity management and e-Authentication services have received three major U.S. federal government certifications. WidePoint's profile of customers encompasses U.S. federal government agencies such as the Department of Defense, the Department of Homeland Security, the U.S Treasury Department and the Department of Justice as well as major transnational corporations such as Boeing Aerospace, Northrop Grumman and several major pharmaceutical companies.
