

# WidePoint Subsidiary Operational Research Consultants, Inc. (ORC) Signs Contract with Department of Commerce

## ORC will provide Virtual Private Network (VPN) End-to-End Two Factor Authentication with RSA SecurID

Tuesday, November 27, 2007

**FAIRFAX, Va.** — Operational Research Consultants, Inc. (ORC), a wholly owned subsidiary of WidePoint Corporation (AMEX: WYY) announced today that it has signed a contract with the Department of Commerce (DoC) to provide two-factor authentication tokens and Virtual Private Network (VPN) implementation support.

The Contract will have a term of five years and an initial value of approximately \$2 million dollars. Under this contract, ORC will prepare and provide architectural changes, documentation, and best practices along with RSA secure identification tokens in order to secure DoC VPN's in accordance with Office of Management and Budget (OMB) directives. This will allow Department of Commerce and its sub agencies to meet the growing demand for security against the constant threat of intrusion.

ORC's PIVotal ID© solution will include RSA Authentication Manager® software as the management component of the RSA SecurID® solution.

ORC's PIVotal ID© solution will verify authentication requests and centrally administer user authentication policies for access to enterprise networks.

No other system presently available compares to ORC's PIVotal ID© solution utilizing RSA SecurID authenticators and RSA Authentication Agent® software, which provides better two-factor user authentication to protect access to more VPN's, wireless networks, web applications, business applications and operating environments, including the Microsoft Windows® operating system.

ORC's CEO and President, Daniel E. Turissini, said, "The combination of ORC's technical team and RSA's hardware and software solution creates effective policies and network architecture to deploy highly secure VPN's to meet and exceed OMB's requirements. ORC looks forward to supporting the DoC in its efforts to meet its federal mandates and is proud to be a part of the federal government's security efforts."

For more information on ORC, visit <http://orc.com> or call Ms. Denise Finnance at (703) 246-8530. For ORC public relations contact Ms. Jan Goebel at (703) 938-1242.

## **About WidePoint**

WidePoint is a technology-based provider of products and services to the government sector and commercial markets. WidePoint specializes in providing systems engineering, integration and information technology services. WidePoint's wholly owned subsidiary, Operational Research Consultants, Inc. (ORC), is at the forefront of implementing government-compliant eAuthentication identity management managed services and associated systems engineering/integration. ORC has earned four major U.S. federal government certifications offering the highest levels of assurance for transactions over the Internet.
