**WidePoint Subsidiary iSYS, LLC Awarded New Contract By
The County of Riverside, California for Wireless Telecom Bill Auditing and Cost
Reductions Services under iSYS's Proprietary Telecom Expense Management Services**

McLean, Virginia – September 19, 2011 – WidePoint Corporation (NYSE Amex: WYY), a specialist in wireless mobility management and cybersecurity solutions, today announced that its wholly owned subsidiary, iSYS LLC, (“iSYS”) has been awarded a new contract to provide wireless telecom bill auditing and costs reduction services to be provided under iSYS’s proprietary telecom expense management (“TEM”) services to the County of Riverside, California.

iSYS will provide a comprehensive telecom expense management solution to the County. Initially, iSYS will perform a county-wide telecom services bill audit to analyze the County’s current inventory of wireless assets and services for the purpose of reducing overall costs to the County in order to optimize services and maximize the County’s return on investment. The audit will analyze current and past bills, optimize current services, reduce cost of current plans and obtain refunds and credits from carriers for previous overcharging.

“As the leading provider of TEM services to the US Federal Government, iSYS is presently delivering 30-65% NET savings on mobile budgets to our TEM clients,” said Jin Kang, President of iSYS. Mr. Kang further added, “iSYS is focusing on expanding our TEM Services to support state and local government agencies as we further solidify our leading TEM position in the federal sector. We look forward to delivering maximum value to the County of Riverside and are excited to work with such an innovative local government.”

“Government agencies across the country continue to face budget gaps and challenges,” said Steven L. Komar, WidePoint CEO & Chairman. Mr. Komar further added, “iSYS has developed a solution that is helping agencies at all levels of government save on telecom costs. This award validates that iSYS is a vendor of choice to help government agencies maximize their wireless budgets.”

iSYS TEM solutions combine telecom industry expertise, managed services and the company’s

award-winning, proprietary, customizable web-based portal - ITMS[®] for “Intelligent Telecommunication Management System” - to drive efficiency and cost reduction. ITMS[®] is recognized for meeting U.S. Department of Defense’s Gold Disk Standard for Data Security. iSYS TEM services include wireless service contracts administration, invoice management and auditing, rate plan optimization, inventory management; management reporting, contract optimization, ordering and procurement, bill payment, dispute recovery, and device disposition and disposal.
