WidePoint Enters into Global Master Services Agreement with Compass Group PLC

Will Expand U.S. Based Managed Mobility Services to all Compass International Subsidiaries on a Global Relationship Basis

MCLEAN, Va., December 2, 2013 -- WidePoint Corporation (NYSE Mkt: WYY), a leading provider of enterprise-level Managed Mobility Solutions featuring Enterprise-wide identity and data assurance solutions deliverable in a secured cloud environment, announced today that it has entered into a Global Master Services Agreement with Compass Group PLC.

Compass Group PLC (www.compass-group.com) is one of the world's largest food and support services companies, with annual revenue in excess of \$27 billion and over 500,000 employees working in around 50 countries.

The new agreement anticipates WidePoint providing a full menu of managed mobility solutions to Compass locations worldwide. Compass will also offer WidePoint's portfolio of cost-effective services through their committed customers and partners program.

John Atkinson, Chief Sales and Marketing Office of WidePoint, said, "We are pleased to announce this new international agreement. It builds upon several years of U.S.-based performance supporting Compass, and expands our relationship by showcasing our abilities to support our global clients beyond the constraints and limitations of national boundaries."

Steven L. Komar, WidePoint CEO & Chairman, said, "This agreement will allow us to demonstrate our managed mobility services on an international stage. As we continue to converge and build out an Enterprise-wide suite of solutions, including identity management and other mobile management solutions, this agreement should clearly show how our integrated managed mobility offerings can assist other organizations, both public and private, to realize greater security, visibility, and cost saving services across their entire sphere of business operations."

About WidePoint:

WidePoint is a leading provider of secured, cloud-delivered, enterprise-wide information technology-based solutions that can enable enterprises and agencies to deploy fully compliant IT services in accordance with government mandated regulations and advanced system requirements. WidePoint has several major government and commercial contracts.
