**WidePoint's Privileged Management Portal Awarded
Cyber Solutions Trail "Best Value"**

*AFCEA International Cyber Symposium's new awards are focused on
finding innovative new solutions in cybersecurity*

McLean, Virginia, June 26, 2014 – WidePoint Corporation (NYSE Mkt: WYY) a leading provider of Managed Mobility Services (MMS) featuring Cybersecurity and Telecommunications Lifecycle Management (TLM) solutions, announces that its PIVotal ID™ Privileged User Management Portal has been awarded the “Best Value” solution in the AFCEA International Cyber Symposium Cyber Solutions Trail competition.

The Cyber Solutions Trail was created to provide a forum to discover innovative new solutions in cybersecurity. The top 12 were invited to present their solutions on Tuesday during the Cyber Symposium, and winners were announced at the Symposium's plenary luncheon on Wednesday, June 25. WidePoint CTO Daniel Turissini presented WidePoint's entry, Privileged User Management Portal.

The Privileged User Management Portal was selected for “Best Value,” one of three award categories. The Privileged Management Portal, announced earlier this year (<https://www.widepoint.com/widepoint-launches-secure-cloud-service-for-privileged-user-access/>), offers an end-to-end certificate-authenticated VPN solution that monitors and records the activities of privileged users across hybrid cloud environments. The solution leverages WidePoint technology partners Xceedium's Xsuite® and Thales e-Security's HSM technology.

About WidePoint

WidePoint (NYSE Mkt: WYY) is a leading provider of secure, cloud-delivered, enterprise-wide information technology-based solutions that can enable enterprises and agencies to deploy fully compliant IT services in accordance with government-mandated regulations and advanced system requirements. WidePoint has several major government and commercial contracts. For more information, visit www.widepoint.com.
