**WidePoint To Participate in TEMIA Pavilion and Thought Leadership
during CTIA's Super Mobility Week**

*WidePoint and LG Mobile Phones will demonstrate WidePoint Certificate-on-Device
enterprise mobile security solutions*

McLean, VA, September 9, 2014 – WidePoint Corporation (NYSE Mkt: WYY) a leading provider of Managed Mobility Services (MMS) featuring Cybersecurity and Telecommunications Lifecycle Management (TLM) solutions, will be participating in CTIA's Super Mobility Week, September 9-11, 2014, exhibiting as part of the TEMIA Pavilion in the MobileCON expo and participating on a panel discussion hosted by TEMIA. In addition, WidePoint will also demonstrate WidePoint Certificate-on-Device and LG Electronics MobileComm, USA (LG Mobile Phones) GATE enterprise solutions that help IT managers securely and remotely manage mobile devices to protect networks and data.

The MobileCON expo during Super Mobility Week opens on Tuesday, September 9, at 11:00 am and will run through Thursday, September 11. WidePoint will be part of the TEMIA Pavilion, exhibiting in Booth #7422. On Tuesday, September 9, WidePoint's Ken Vanderhorst will participate in a panel discussion within the TEMIA Thought Leadership series. The session is *BYOD, MDM, and Mobile Security* and will take place on Stage 2: Enterprise Apps, MDM, Big Data, Cloud, located on the MobileCON exhibit floor.

WidePoint will show its Certificate-on-Device mobile security solution, demonstrating how the use of certified digital certificates can provide a high level identity assurance of a mobile device and its user to an organization's network, ensuring that only authorized and protected devices access enterprise resources hosted in any private or public cloud environment. LG Mobile Phones enterprise devices can be used with WidePoint's strong level of assurance digital

certificates, allowing LG Mobile Phones enterprise customers to leverage the higher assurance security controls and flexibility Certificate-on-Device enables.

John Atkinson, chief sales and marketing officer of WidePoint, said, “Super Mobility Week is the perfect venue to showcase Certificate-on-Device with LG Mobile Phones. We look forward to meeting with attendees looking for enterprise mobile security solutions. Certificate-on-Device is a flexible, cost-efficient way for enterprises to implement higher assurance security for the mobile devices used in their organizations.”

About WidePoint
