**WidePoint Announces Section 508 Compliance Certification Renewal for Telecom Lifecycle Management Platform**

McLean, VA – May 16, 2018 – WidePoint Corporation (NYSE American: WYY), a leading provider of Trusted Mobility Management (TM2) specializing in Telecommunications Lifecycle Management (TLM), Identity Management, and Bill Presentment & Analytics (BP&A) solutions, announced today that the U.S. Customs and Border Protection (CBP) has issued Section 508 recertification for WidePoint’s proprietary TLM platform, ITMS™. Section 508, an amendment to the United States Workforce Rehabilitation Act of 1973, is a federal law mandating that all electronic and information technology developed, procured, maintained, or used by the federal government be accessible to people with disabilities.

Mr. Todd Dzyak, President and CEO of WidePoint Integrated Solutions Corp. and WidePoint Solutions Corp., stated, “WidePoint is committed to ensuring that our IT solutions meet federal requirements for accessibility. ITMS™ supports the management of mobile, IoT resources, and enterprise wireline, with more than 1,000 customizable settings. We thank the team at U.S. Customs and Border Protection for their time, testing and certification renewal.”

Anchored by ITMS™, WidePoint TLM solutions are customized and can range from telecom invoice auditing and rate plan optimization to fully managed services. WidePoint mobile TLM solutions span device and service lifecycle management, from procurement through device recycling and service termination. WidePoint wireline TLM solutions encompass telecom circuits and service management.

Mr. Jin Kang, President and Chief Executive Officer of WidePoint Corporation, stated, “ITMS™ is the anchor of WidePoint’s TM2 – Trusted Mobility Management – Framework, offering the functionality and customization sought by government and commercial enterprises demanding accessibility, increased usage visibility, accurate inventory management and enhanced data security. Section 508 certification is another core differentiator that makes ITMS™ the leading telecom management platform in the public sector. This certification further supports our expansion into IoT management and Device-as-a-Service (DaaS) opportunities.”
