WidePoint Corporation Teams with Leidos on NASA NEST Contract Award

Fairfax, VA – February 19, 2019 – WidePoint Corporation (NYSE American: WYY), the leading provider of Trusted Mobility Management (TM2) specializing in Telecommunications Lifecycle Management, Identity Management and Bill Presentment & Analytics solutions, has partnered with Leidos (NYSE: LDOS), a FORTUNE® 500 science and technology leader, to support its recently awarded contract with NASA to provide information technology end-user services to support the agency's mission.

NASA's End-user Services & Technologies (NEST) contract is a single award, firm-fixed-price, indefinite delivery/indefinite quantity (IDIQ) contract. The contract has a two-year, three-month base period followed by a two-year option, a one-year option, and five one-year award term options. Work will be performed at 10 NASA centers nationwide.

The NEST contract establishes a long-term outsourcing arrangement with the commercial sector to provide and manage the majority of NASA's personal computing hardware, supporting infrastructure, agency standard software, mobile IT services, help-desk support, and other associated end-user services. Widepoint will manage the entirety of NASA's mobile services and provide the associated telecom expense management services, including 24/7 help desk, for more than 20,000 devices over 10 separate accounts.

"Leidos's vision for this contract and the company's track record of excellence made joining this team an exciting opportunity for WidePoint," said Jin Kang, Chief Executive Officer and President of WidePoint Corporation. "Strategic partnerships have and continue to be an important growth driver for WidePoint as they enable us to penetrate new markets, diversify and increase our customer base, and improve our already strong reputation. We are honored to be on the Leidos team, and we look forward to supporting NASA's critical mission with WidePoint's TM2 solutions and realizing the many benefits this partnership will have for all parties involved."
