

WidePoint Secures More than \$42 Million in Federal Trusted Mobility Management (TM2) Contracts during the Second Quarter of 2020

Fairfax, VA – July 14, 2020 – **WidePoint Corporation** (NYSE American: **WYY**), the leading provider of Trusted Mobility Management (TM2) specializing in Telecommunications Lifecycle Management, Identity Management and Digital Billing & Analytics solutions, today reported that the company recorded more than \$42 million in federal contract awards and extensions during the second quarter of 2020.

During the quarter, WidePoint recorded 34 contractual actions, including new contracts, contract renewals, exercised option periods and contract extensions with federal government clients. Highlights include:

- Task orders, contract renewals and extensions with the U.S. Department of Homeland Security Headquarters and numerous DHS Components
- Option contracts for Managed Mobility Services exercised by the Centers for Disease Control and Prevention, National Science Foundation, U.S. Courts, and the U.S. Department of Health and Human Services, among others

“Many agencies are continuing to adopt more mobile workforce practices, and that trend is significantly expanding our work and helping drive growth for WidePoint,” said Jin Kang, WidePoint’s president and CEO. “Additionally, as government agencies grapple with changing budgets, the value of WidePoint’s TM2 solutions has become even more evident. We help our customers save money, which translates to saving jobs. We’re highly encouraged by the traction we’ve gained this year. We look forward to continuing this momentum to maximize resources across the mobile landscape for our current and prospective clients.”
