

Securing, Managing, Analyzing the Mobile Environment

The Challenge:

Managing the mobile landscape is complex and time-consuming, requiring organizations to review, procure and integrate numerous applications and technologies.

The Solution:

WidePoint's Trusted Mobility Management (TM2) Framework.

Trusted Environment, Secure Authentication Access

The WidePoint TM2 Framework converges Telecom Lifecycle Management, Identity Management and Mobility Management in a unified platform to reduce complexities and costs.

TM2 Incorporates:

- Identity management
- Mobile policy management
- Mobile asset and service provisioning
- Inventory visibility and management
- Invoice auditing and presentment
- Usage and rate plan optimization
- Business intelligence and analytics
- Comprehensive customer support

TM2 integrates with Mobile Device Management (MDM), Mobile Application Management, and Mobile Security Management third party applications.

TM2 enables organizations to safely and securely embrace, manage, analyze and maximize the benefits of mobility. Contact WidePoint today to learn more!
