Order-Level Materials (OLM) OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Federal Supply Schedule (FSS) program contract or BPA.

OLM pricing is not established in the FSS contract, but at the order level. Since OLMs are identified and acquired at the order or BPA level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs using FAR 15.404 techniques for commercial price determinations. Using this procedure, ancillary supplies and services that are unknown at the time of the Schedule contract award may be included and priced at the order level or BPA level.
